#### DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Ebenezer Baptist Church is located on the north side of Cumberland Street several lots east of the Baltimore and Ohio Railroad tracks in Cumberland, Allegany County, Maryland. It is a two-story tan brick structure built in 1875, three bays (28') wide with a cross gable and four bays (40') deep. A small steeple is perched on the roof to the east of the cross gable.

The main entrance is in the center of the south facade. It consists of a double door with a lancet-shaped transom. The arch over the transom is laid in darker brick, two rows of all headers. On the second floor there are three lancet windows with double hung sash and stone sills. They have arches above like that on the door. The sash have one large pane with a row of small squares of stained glass around the edge. The central window is shorter and wider than the others and extends a little way into the cross gable end. Rusticated stone quoins decorate both corners of the south facade.

The steeple sits on the south slope of the east end of the roof. It is a square shingled structure with louvered panels on the sides and a roof. The roof and cross gable across the front of the church are very steep. The roof over the rear three bays is perpendicular to the front roof and has a shallow pitch.

Along the sides there are four windows on both the first and second stories. Those on the second story are identical to the flanking windows on the south facade. first story windows are shorter and have stone sills and segmentally arched lintels of two rows of headers. These windows are boarded up.

The Church is built into a slope and has an exposed basement on the rear facdde.

#### STATEMENT OF SIGNIFICANCE

The cornerstone of the Ebenezer Baptist Church was laid in August 1875, and the church was completed the same year. The church is located on the west side of historic Will's Creek, on Cumberland Street.

The lot on which the church is located was purchased of George Henderson, Jr. (a prominent businessman of Cumberland) and deeded to Lewis Hicks, Willie Johnson, Robert Trent, Simon Bolden, and John H. Homes, a committee appointed by Ebenezer African Baptist Church of Cumberland.

The present brick building was constructed in a very nice residential area, giving the church an excellent view of the city of Cumberland. The church is also in sight of Cumberland's most historic site, Fort Cumberland.

Ebenezer Church is a very style-conscious structure, emulating the Gothic vival architecture of many 19th century churches. It was constructed by the black population of Cumberland at a time when money was scarce and business failing in this area. In spite of this, the church was planned and constructed by a group who largely depended on labor in local business and industry for their wages.
